

Next Meeting

The next Master Plan Committee meeting will be May 10, 2012 9 am – 11 am in IARC 417. Aside from the standard agenda items, up for discussion/action will be:

1. Proposed location of the new ASF dish. The North Campus Subcommittee will be considering the issue the day before our meeting, so our actions will most likely be predicated on their review and recommendations.
2. Jonathan Shambare, DD&C, will make a presentation on the roundabout design for Lower/East Campus. Although MPC will not be making any recommendation on a preferred option at this meeting, it will be important to see and understand the pros and cons of the three options currently on the table.
3. Jenny Campbell, DD&C, will present the latest plans for the P3 project – dining and housing.
4. Community garden – an update on the community garden will be provided. (this had been proposed for a location just west of CCHRC and east of Thompson Drive).
